

PRELIMINARY PROGRAM

GYNecOLOGICAL
ENDOCRINOLOGY
THE 21ST WORLD CONGRESS

8-11 MAY 2024
FLORENCE, ITALY

WWW.ISGE2024.COM

SCAN ME

Dear friends and colleagues,

Prof. Andrea R. Genazzani
President of the ISGE

I invite all of you to join us at the 21th World Congress of Gynecological Endocrinology.

The ISGE will welcome you to actively participate in the debates on the most recent updates in Gynecological, Obstetrical and Reproductive Endocrinology and Metabolism.

The event will provide an insight into the future strategies and molecules for the protection of women's health and their quality of life.

Led by some of the leading experts in the field, the Program Committee has been producing a scientific event which brings together world-known Healthcare Professionals for the purpose to present and discuss the latest updates and insights in the field.

The ISGE World Congress has become, therefore, the largest and most significant event on Gynecological Endocrinology and the core of the ISGE's educational activities.

The congress, held every 2 years in Florence, offers the opportunity to meet, learn, discuss and stay up-to-date with the future strategies for the protection of women's health and their quality of life.

**Led by
some of
the leading
experts
in the field**

ISGE BOARD

PRESIDENT

Andrea R. Genazzani (IT)

TREASURER

Martin Birkhaeuser (CH)

EXECUTIVE SECRETARY

Tommaso Simoncini (IT)

BOARD MEMBERS

Leila Adamyman (RU)

Sarah Berga (US)

Mark Brincat (MT)

Roberta Brinton (US)

Antonio Cano (ES)

Cuauhtemoc Celis (MX)

Peter Chedraui (EC)

Nilson De Melo (BR)

Angelica L. Hirschberg (SE)

Andrzej Milewicz (PL)

Blazej Meczekalski (PL)

Alfred Mueck (DE)

Frederick Naftolin (US)

Rossella E. Nappi (IT)

Nicola Pluchino (CH)

Xiangyan Ruan (CN)

Nestor Siseles (AR)

John C Stevenson (UK)

Charles J. Sultan (FR)

Basil Tarlatzis (GR)

Svetlana Vujovic (RS)

THE SCIENTIFIC PROGRAM COMMITTEE

Andrea R. Genazzani

Sarah Berga

Martin Birkhaeuser

Antonio Cano

Peter Chedraui

Tommaso Simoncini

Scientific Program

KEY LECTURES

Sarah Berga (US) **OPENING LECTURE**

Oxytocin: from labor to love

Frederick Naftolin (US)

50 years of chasing the mechanism of the LH surge

Martin Birkhaeuser (CH)

Do global Guidelines still make sense? The example of Menopause

Leila Adamyan (RU)

New surgeries for genital malformations: pre-operative investigation for planning surgery and intra-operative navigation

Katheleen Stock (UK)

The Evolution of Sexual Identity

Susan Davis (AU)

Unravelling the mystery of testosterone treatment for women

Pauline Maki (US)

Neuroactive Steroids and Perinatal Mental Health

SYMPOSIA

Menopause: impact on metabolic syndrome, obesity, skin, bone, muscle and their connective tissues

Petra Stute (CH) Metabolic worst case scenario – metabolic syndrome in peri- and postmenopause

Frederick Naftolin (US) Is it time to treat menopausal obesity with estrogen?

Mark Brincaat (MT) The effects of the Menopause and HRT on the Skin, Bone, Muscle and their Connective tissues

Cuauhtemoc Celis (MX) Sarcopenia and its management

Menopause: the importance of individualized therapies

Luciano M. Pompei (BR) Is it allowed to use HRT after gynecologic cancer?

Santiago Palacios (ES) Role of regenerative gynecology

in menopausal women

Andrea Genazzani (IT) Androgen supplementation from menopausal transition to elderly

Ultrasound in patients with heavy menstrual bleeding

Steven Goldstein (US) Ultrasound diagnosis of myometrial pathology that causes HMB

Katerina Exacoustos (IT) HMB: Transvaginal sonographic diagnosis of endometrial pathology

Wouter Froyman (BE) Ovarian lesions associated to HMB: ultrasound evaluation

Endometriosis and adenomyosis

Stefano Angioni (IT) Metabolomic and microbiomic signatures in endometriosis patients. New frontiers in research?

Felice Petraglia (IT) New Options in Medical Treatment

Nicola Pluchino (IT) Intracrinology of endometriosis

Ovarian stimulation in ART: the importance of treatment individualization

Pedro Barri (ES) New strategies in ovarian stimulation for ART

Filippo Ubaldi (IT) What is the place of Duo Stim in current IVF practice?

Bart Fauser (NL) Mild ovarian stimulation in poor responders: Is it better?

Peter Humaidan (DK) Luteal phased deficiency in fresh and frozen embryo transfer cycles: What is the evidence?

Dysphoria and eating disorders in adolescence

Charles Sultan (FR) Gender dysphoria in adolescence: a growing health problem?

Andrzej Milewicz (PL) Binge Eating Disorders (BED) - Symptom of our times

Giovanni Castellini (IT) Embodiment and eating behaviours in adolescents with gender dysphoria: implications for the gender affirming path

Hypothalamic regulation of the pituitary-gonadal axis

Vincent Prevot (FR) Tanyctytic control of pulsatile GnRH release

Blazej Meczekalski (PL) Kisspeptin and functional hypothalamic amenorrhea

Sarah Berga (US) The reproductive consequences of stress: from anovulation to preterm delivery

Female Endocrine transitions and emergence of autoimmunity

Laura Gaspari (FR) The relationship between Puberty and the Immune System

Marta Mosca (IT) Pregnancy and systemic lupus erythematosus

Roberta Brinton Diaz (US) Menopause: Transitioning to the Neurologist

Gender debate in reproductive health

Katheleen Stock (UK) Limitation of academic freedom from the inquisition to modern wokeness: the example of gender debate

Dagmar Pauli (CH) The approach of non-binary and trans gender identity around puberty

Kenny Rodriguez (SE) Wish to have children in transgender people: the place for fertility preservation and surrogacy

Angelica Hirschberg Linden (SE) Eligibility regulations for transgender athletes at the Olympic Games 2024

Hormonal contraception: problems and solutions

Nilson Roberto De Melo (BR) Endometriosis & Contraception

Giovanni Grandi (IT) Management of bleeding disorders

in users of progestin-only contraceptives

Nestor Siseles (AR) Contraception and comorbidities in the menopausal transition

Innovative strategies to treat pelvic organ prolapse

Dudley Robinson (UK) Urinary incontinence through pregnancy and menopause

Jan Deprest (NL) Prolapse, pregnancy and menopause

Tommaso Simoncini (IT) Innovative strategies to treat pelvic organ prolapse

Premature Ovarian Insufficiency

Svetlana Vujovic (RS) Pregnancy in premature ovarian insufficiency - deleterious effects of stressors on biological clock

Nick Panay (UK) Updated ESHRE POI guidelines - what's new?

Antonio Cano (ES) Main features to manage these patients, including the key steps in diagnosis and therapeutic support, either hormonal and/or fertility

Breast cancer patients: how to follow and how to protect

Nicoletta Biglia (IT) New Strategies in the Treatment of Menopausal Symptoms in breast cancer patients

Angelo Cagnacci (IT) The management of BRCA mutated patients after the prophylactic oophorectomy and mastectomy

Anne Gompel (FR) Breast cancer survivor and breast cancer in pre-menopausal women

Endometrium and endometrial cancer

Andrea Giannini (IT) Conservative treatment of premalignant and malignant lesions of the endometrium in reproductive age

Angiolo Gadducci (IT) Management of patients with endometrial cancer

Estrogen deprivation impact on neurodegenerative and mood disorders

Walter Rocca (US) Estrogen deprivation and Parkinson's disease: a 2024 update

Pauline Maki (US) Vasomotor Symptoms: Associations with Alzheimer's disease Biomarkers

Herman Depypere (BE) The influence of hormones, SERMS, TSECS and aromatase inhibitors on Alzheimers' disease

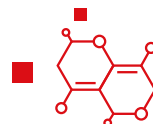

Andrea Genazzani (IT) The John Studd triad of estrogen responsive depressive disorders

Polycystic ovary, fertility and long-term effects

Basil Tarlatzis (GR) Treatment of infertility in women with PCOS: What do the New Guidelines recommend?

Alessandro Genazzani (IT) PCOS and Insulin resistance: new insights of the metabolic impairment

Piltonen Terhi (FI) PCOS, Fertility and Long-term effects

Rossella E. Nappi (IT)

Pharmacotherapies for women's sexual health: state of the art and future directions

Steven Goldstein (US)

Abnormal Uterine Bleeding

Kristina Gemzell Danielsson (SE)

Emergency contraception: On demand and/or Long acting?

Alessandro Genazzani (IT)

Metabolic Syndrome

MEET THE EXPERT

Prediction of breast cancer risk and prognosis using laboratory markers

Alfred Mueck (DE) Estradiol metabolites to predict primary risk of breast cancer

Xiangyan Ruan (CN) New tumour marker to predict prognosis of breast cancer patients

Impact and integrity and quality of scientific publication in Gynecological Endocrinology

Peter Chedraui (EC) Impact of Scientific Publications on women's health

Irene Lambrinoudaki (GR) Integrity and Quality in scientific publications: What editors look for

Cardiovascular health, a critical factor for women's life

Peter Collins (UK) Microvascular angina: an overlooked condition in women

John C. Stevenson (UK) Female CHD risks in the reproductive and post-reproductive years

Yin and Yang of genitourinary syndrome of menopause (GSM) and low sexual desire

Sheryl Kingsberg (US) - Rossella E. Nappi (IT)

Microbioma: a great partner for reproductive health

Amedeo Amedei (IT) The Microbiota-Immunity axis in the reproductive system

Inmaculada Moreno (ES) The endometrial microbiome -

a window into reproductive health

Endometrial receptivity

Robert Taylor (US) Neuroendocrine regulation of endometrial receptivity

Stratis Kolibianakis (GR) Endometrial receptivity assays: Do they help?

Hormones and Pregnancy

Giancarlo Di Renzo (US) Cross Talks Among Hormones For The Maintenance Of Pregnancy

Howard Carp (IL) Hormone supplementation in early pregnancy. What is the evidence?

SYMPOSIA BY SCIENTIFIC SOCIETIES

Female endocrinology. Milestones in a woman's life

(organized by the ALEG - Asociación Latinoamericana De Endocrinología Ginecológica)

Carolina Fux-Otta (AR) Diabetes and pregnancy

Sebastian Mirkin (US) PCO in women of reproductive age. Something new?

Alejandra Elizalde Cremonte (AR) Hormones and skin in Menopause

Raul Dominguez Gonzalez (MX) THM is it necessary?

Selva Lima (UY) Discussion

José Luis Elizarrarás Cendejas (MX) Discussion

Jorge Alejandro Michel Vergara (MX) Discussion

Challenging aspects of the management of post-menopausal osteoporosis

(organized by ESCEO)

Maria Luisa Brandi (IT) Management of osteoporosis above 70 years

René Rizzoli (CH) Cardiovascular concerns when

prescribing an anti-osteoporosis treatment above 70 years

Off the beaten track topics on Gynecological

Endocrinology (organized by SAEGRE Sociedad Argentina De Endocrinología Ginecológica Y Reproductiva)

Blanca Campostrini (AR) The interplay between the microbiome and menopause. A critical step on women's health

Sandra Cecilia Demayo (AR) Melatonin: The wonder Hormone?

Fabian Gomez Giglio (AR) Are we in the know about risk in hormonal therapy in transgender people?

Yanina Azas (AR) The impact of environmental factors on ovarian aging: Is our human reproductive capacity actually diminishing?

Fernanda Gonzalez de Chazal (AR) Discussion

Registrations

REGISTRATION INCLUDES

On-site Access

Join the congress in Florence

Recordings available

Recordings of the main halls will remain available for 90 days.

Two years

ISGE Membership*

*The ISGE Membership can be obtained with the congress registration only for those who register personally through the website and pay their registration fee using personal funds. The membership is complimentary and can't therefore be considered as an additional economic value to the congress registration fee.

CME

A request will be made to the EACCME for European CME Credits.

Italian ECM

3 Italian ECM Sessions

Registration fees (VAT included)

	Low Until Jan 18 2024	Regular Until Apr 18 2024	Late Registration
Delegate	€ 650	€ 750	€ 850
Low and Lower Middle Income Countries	€ 550	€ 650	€ 750
ISGE Member	€ 550	€ 650	€ 750
ISGE Member from Low and Lower Middle Income Countries	€ 500	€ 600	€ 700
Trainees, nurses and technicians	€ 200	€ 600	€ 700
Reduced registration fee (speakers of accepted abstracts)	€ 350	×	×

SCHOLARSHIPS

The ISGE offers the following scholarships to the speakers of accepted abstracts:

ONLY 50
AVAILABLE

FCP SCHOLARSHIP

FULL CONGRESS PACKAGE

- ✓ 9 Hours CME Course reserved to scholarship winners
- ✓ Free registration
- ✓ Free Hotel accommodation

UNLIMITED
AVAILABILITY

FCR SCHOLARSHIP

FREE CONGRESS REGISTRATION

- ✓ Free Congress registration
- ✓ 9 Hours CME Course reserved to scholarship winners

CALL FOR ABSTRACTS

Submit your abstract and present your research at the most significant Congress in Gynecological Endocrinology.

Main topics for abstracts

- > Gynecological Endocrinology
- > Reproductive Endocrinology
- > Obstetrics
- > Embryo and Fetal Endocrinology
- > Gynecology
- > Contraception
- > Medically Assisted Procreation
- > Menopause and Ageing
- > Gynecological Oncology
- > The Breast
- > Diagnosis, Ultrasound and MR
- > Gynecological Surgery

Deadlines
